RENT A CAR

According to your wishes and requests, we can rent and deliver bikes when and where you want. To your hotel, private accommodation, marina, cruise boats, we can give you a full service of renting, delivering and handling bikes with equipment. We are specialized in renting a bike for tourist sailing boats along the coast, with a fleet of more than 200 bicycles, with base in Split and in Hvar. On the bike you can explore and enjoy direct contact with the nature and visit places that are inaccessible by car. Join us in exploring the city and its beautiful Marjan hill on a bike tour. You can take a tour on your own or ask for a guided tour.

South route (route length: 10 km, difficulty: moderate, surface: mostly paved, partly gravel)

The starting point of this route is St. Francis church, situated at the end of the city promenade-Riva. Cycle ahead using the main paved road along the coastline. Then you will pass by Croatian archeological monuments museum, and Meštrović gallery.

After about 10-15 minutes you will reach the point where the route starts going uphill, on your right hand side. This is a no car zone. Going uphill offers beautiful view of the nearby islands, sea and most popular south side beach called Kašuni. Along the route you can stop to see some of the ancient Marjan churches. Above can be seen the cliffs that represent the favorite climbing area for local climbers. Once you get to the crossroads you can choose to cycle some more to reach the top, called Telegrin, or continue directly to the gravel part of the road. This is where you start cycling downhill back to the city.

At the end of the route you will get to the city's viewpoint. There is a cafe bar where you can stop for a drink or to take some pictures. It's a perfect place to enjoy the city view.

Tour finishes cycling down the narrow streets of one of the oldest parts of the Split called Varoš.

2.) North route (route length: 11 km, difficulty: moderate/difficult, surface: mostly paved, partly gravel)

The starting point of this route is St. Francis church situated at the end of the city promenade. Cycle through the city narrow streets and through one of the oldest parts of the city called Varoš. After about 10-15 minutes cycling you will reach a north gate of Marjan hill. This is a no car zone. The route takes you along the coastline overlooking the villages on the main land, Kaštela and small island of Čiovo. On our way we pass by one of the most popular among Marjan beaches, the St. Benedict bay, called Bene. Bene beach is favored among locals in the summer for swimming and in winter as a recreational area. Further more we pass by Institute of oceanography and fisheries situated at the SW cape of Marjan hill.

Cycle forward and then on the left hand side continue uphill passing by a climbing area, cherished by local rock climbers. Along the route you can stop by at old churches like St. Jeronimus, Madonna of Bethlehem and St. Nicolas church. After you get to the crossroads you can choose to cycle some more to reach the top or just advance ahead to the gravel part of the road. After the gravel part you will get to the viewpoint that overlooks Split city. The viewpoint has a cafe bar and it's a perfect spot for relaxing and refreshing. Enjoy the view and take some pretty pictures of the city and nearby mountains. Then you can just cycle down to the city center.

For the price take a look at our bicycle rental prices.

SEGWAY

Experience Split in a completely different way. Segway-the personal transporter is an electric two-wheeled and self-balancing means of transport. Choose one of the Segway tour services and meet Split while having a Segway ride.
